0778 29 Claas Arion 430 with front loader 120

0228 02 Volvo Amazon

0227 03 MB E-Class W 213 Exclusive

0861 39 Fire brigade - VW 411

0390 10 Timber transporter (Magirus S 3500)

0662 01 Cable excavator (Fuchs F 301)

0693 28 THW - standby tanker (MAN)

0515 01 Aluminium flat-bed lorry (Volvo F88)

0433 04 Flat-bed road train (Scania 111)

0807 48 Milk float (MAN 415)

WIKING celebrates the premiere of the new generation of the MB E-Class with a closed-roof version. The Volvo Amazon as four-door and the legendary VW 411 as fire brigade vehicle also make their debut. WIKING introduces a sophisticated new development with the multi-functional Fuchs cable excavator F 301, which thanks to its versatile movability, carries all values of its original in 1:87 scale. The MAN 415 as milk float, the timber transporter with Magirus S3500 tractor unit and the MAN all-wheel drive tanker, whose German

0935 07 Police - VW T4 bus N-scale 1:160

Armed Forces original successfully finished its second life as standby tanker in the service of THW, appear as additional classics. Two Swedes together in the likable, well-known colour scheme: The Volvo F88 aluminium flat-bed lorry brings concrete pipes to the construction site in "Bölling" colours, and the Scania 111 as flat-bed road train in "ASG" service is recommended for open bulk trans-

port. The TW T4 is convincing as police crew vehicle in N-scale. Fans of 1:32 precision scale can now place the Claas Arion 430 with fully functional frontloader in service - filigree work that makes the up-to-the-minute agricultural machines so attractive for modellers.

MODEL UPGRADES FEBRUARY 2017 WITH CONSTRUCTION SITE MODELS

0951 03 Lanz Bulldog 8506 N-scale 1:160

0815 05 Triumph TR4

0090 03 Fiat 1800

0788 03 VW T1 (Type 2) van

0646 08 Winter service – Unimog U 1300

0869 03 Agricultural trailer

0265 03 Van (MB L 319)

0652 02 Wheel loader (Volvo L 350F)

0661 03 Mobile excavator (Atlas 2205 M)

0627 04 Fire brigade – Metz DL 32 (MB Eonic)

Topicality on all 1:87 construction sites: The imposing Volvo wheel loader L 350F as well as the Atlas mobile excavator 2205 M join the programme. Both specialists achieve a high degree of model making original authenticity through fully functional loading movements. Moreover, fire brigade enthusiasts will be pleased with the Metz turntable ladder DL 32, which mounted on the low-floor chassis of the Mercedes-Benz Eonic is equipped for every rescue mission. The Unimog U 1300 is ready for winter service on the haulage premises of

logistics specialist "Rinnen". Looking back, the legendary Triumph TR4, as well as the typical Italian limousine Fiat 1800 in bicolour look offer a convincing retrospective. The VW T1 (Type 2) as van with contemporary, lettering "Eisenwaren Klaus" that matches the road map, appears as the first model of the "WIKING – 85 Years" collection promotion. Additional details of the collection promotion are provided in the separate information sheet. The Mercedes-Benz L 319, on the road as service vehicle for the Fuchs excavator, offers classic fun and thus is companion to the

current WIKING new model classic. Moreover, the agricultural trailer complements many historic tractors. The Lanz Bulldog with cutter bar, which appropriately supplements the 1:160 scale, also appears as a model upgrade.
